

gas service calls

Westfield Gas + Electric services calls to our customers relating to their gas service up to the gas meter of the house, and any gas fired appliance within the house. All inside piping & non-gas fired appliances are the responsibility of the customer.

We service calls to our customers after normal working hours when one or more of the following conditions exist:

- Inside gas odor
- Outside gas odor at meter locations
- Carbon monoxide alarms or concerns
- Structure fires
- High or low gas pressure
- Emergency service for gas fired appliances and equipment (heating equipment, water heaters, ranges, dryers, etc.)

We do not service the following: humidifiers, oil burners, rooftop or raised units. We do not stock circuit boards, perform plumbing services, or offer service contracts. We may not service all commercial or industrial equipment—a service technician will be dispatched to evaluate problem and advise the customer.

Charges

There will be no charge for any call that is found to be a fault within the WG+E's distribution system. All parts shall be paid by the customer. All other charges shall be as follows:

Service calls of inside or outside gas odor, carbon monoxide alarms, or defective WG+E-owned equipment

No charge
