EV Watch: What's New?

Toyota RAV4 Prime

With an estimated electric range of 42 miles & 600 miles total driving range, 302 hp, and an affordable price, it's no wonder they're flying off the lots!

Latest Blog Entry

"Why EVs are Cleaner"

We keep telling you that Electric Vehicles are cleaner. Let's focus on that, and combine all that we've said in other blogs, and explain why.
