

## Welcome to the WG+E Drives Electric Newsletter!

*April 2021*

### What is Public Fast Charging?

#### *Planning a Long Trip? Can't Charge at Home?*

Charging at home, and waking up every morning with a fully charged car, is not always an option. For those taking long trips, or those without a way to charge their car at home, the best way to fuel/charge their car is the public charging network.

#### [Find Stations Near You!](#)

*For many, the equivalent method of charging to a gas station will be the level 3 DC Fast charging networks.*

### "The Future of Exhilaration"

#### *Test Drive the new Ford Mach-E.*

Test drive the new Mustang EVeryone is buzzing about! ([The Griswold's even made the switch!](#))

Talk to an EV Specialist 1-on-1 to learn more and to set up a test drive at Holyoke's Marcotte Ford with Brian Farnsworth (413) 536-1900!

#### [Contact Us!](#)

## Latest Blog Entry

### *The EV Driver of the Future*

Our EV specialist was visited by his future self, who drives his EV back in time to show the past what the EV filled future will look like! Happy April Fools!
